Subject: Rialto Window replacement project

Date: Tue, 22 Jan 2008 14:37:24 -0600 [View Headers](#)

Katherine & Kevin & Kevin, Jr.,

Thank you for a job well done.

Commercial Window Installers not only won the bid for replacing all the windows in the Historic Rialto Square Theatre Building, but they won the praise of the architects and staff. As Leasing Director for the building, my largest concern had to do with the disruption to our office tenants during this project. We virtually had no problems relating to our tenant spaces being disrupted with the installation of new windows in all the suites. The main reason for this must be the attitude and manner in which the installation crew handled the interaction with the tenants. This was a major project accomplished during the winter season with few problems, certainly fewer than we had anticipated and with a perfect safety record as well. A great big thank you from all of us at the Rialto.

I hope you can use a few sentences from this paragraph.

Thank you again,
David L. Kump
Director of Commercial Leasing
